## March

- Additional support has been mobilized towards surgery of Master Sarnik Boyal
- 

## Renewable Energy

### May

Teachers of Sri Someshwara High School, dombaranahalli decided to provide students with opportunities to study independently so that they build their self confidence. They felt that Students would be more active and take the initiative more frequently when they receive attention and appropriate encouragement from the teacher. Thus they decided to coach students studying 10th standard extra hours after school.

Due to severe shortage of power in villages in rural areas of Karnataka, this programme was affected. Thus R.K.Foundation has installed Solar light system at Sri Someshwara High School, dombaranahalli at tumkur district of Karnataka. Specifications:

Room Size: 24 X 20

Lighted With 5 Led Lights: 7 NOS

Back Up: 4-5 Hrs

Panel Size: 50W

Battery: 12V, 42 Ah

## July

R.K.Foundation's renewable energy project aims to improve the living conditions of students from low socio economic background, in rural areas. Many rural households lack electricity and use kerosene lamps for lighting, Kerosene lamps are not only expensive, they are also potentially dangerous and a major source of greenhouse gases.

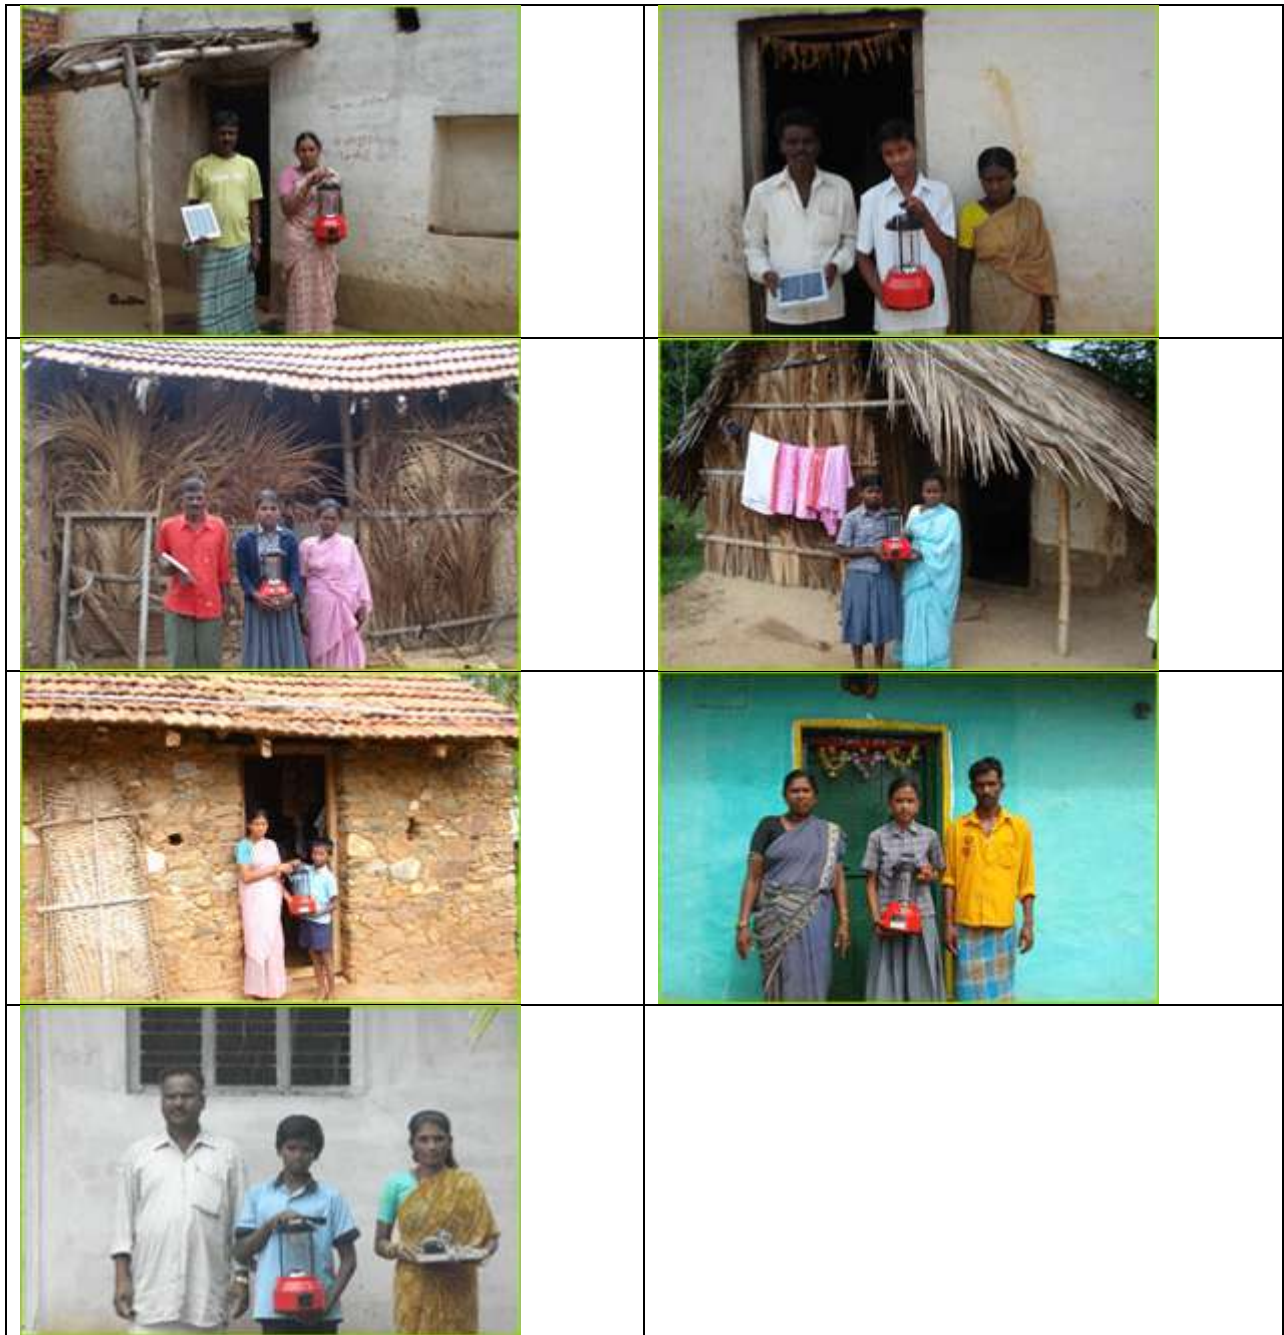

Although most of the villages are connected to the power grid, they do not receive power early in the morning or in the evening because state power companies may redirect electricity. With the six hours of light supplied daily by the solar lanterns with LED, study hours will increase, which will have a positive influence on the children's performance at school. Women are also able to perform their routine household work both indoors and outdoors.

Eleven students from the villages of thovinkere, chimmanahalli & dombaranahalli have been supported with solar lanterns with LED.

[Project supported by CSR project team – Next Gen Group II of GMR consulting services PVT.LTD, Bangalore]

## November

- 12 solar lanterns distributed to children from very low socio economic backgrounds & some elderly who are living on their own with out any support from their children or any relatives, in the region of tavarekere, bangalore south range
- Solar LED Lights have been installed in Karunabhavan Home for the aged, chamarajanagar district, Kollegal
- Tree Planting has been initiated at: Anjana vidhya Kendra & Rural government schools of bangalore south range 1

## February

Project supported by: R2I Club Members

- 12 students have been supported with solar LED lanterns in the villages: Chimmanahalli, Thovinakere, Gollarahatti, Harikaranahalli, Dombaranahalli, Dombaranahalli Gollarahatti, Akkalasandra, Akkalasandra gollarahatti, & Chikkagoraghatta

## March

- 25 students have been supported with solar LED lanterns in the villages: Amatur, Devalapur, Devinakoppa, Garjur in the region of Belgaum District of Karnataka
-
